BRISA - Auto-Estradas de Portugal, SA sociedade aberta, com sede na Quinta da Torre da Aguiha - Edifício Brisa - S. Domingos de Rana, concelho de Cascais, com o nº de contribuinte 500 048 177, matriculada na Conservatória do Registo Comercial de Cascais, sob o nº 10583, com o capital social de euros 600 000 000

- Goodwill: In accordance with IFRS 3 goodwill is not amortised but is subject to annual impairment tests. As explained earlier, Brisa applied IFRS 3 prospectively as from the transition date.
- Minority interests: In accordance with IAS 1 – Financial statement presentation, minority interests can be presented as a component of shareholders' equity
- Deferred costs: Brisa has recorded, as deferred costs, amounts paid to the State as a result of prior renegotiations relating to extension of the concession contract. In accordance with the IFRS such amounts correspond to contractual rights and are classified as intangible assets. In addition, Brisa has recorded, as deferred costs, several expenses incurred which, in accordance with IFRS, should be charged immediately to current expense (or to accumulated results)
- Expenses incurred on financial operations: In accordance with PGAAP expenses incurred with financial operations are deferred over the period of the financial operations. In accordance with IFRS financial expenses must be reclassified and start being recorded as deductions from the amount of the liability to which they relate, the financial expenses being valued in accordance with the effective interest method.
- Compensation for the abolition of tolls: Compensation received by Brisa for the abolition of tolls, currently recorded as deferred income, correspond to a reduction in future financial benefits of the related stretches and so should be recorded as a decrease in the value of the assets.

- Financial co-participation: In compliance with PGAAP, Brisa has recorded the amounts of financial co-participations of the State in the investment in motorways (State subsidies) as deferred liabilities. For purposes of IFRS Brisa has adopted the alternative option provided for in IAS 20, of recording the subsidies as deductions from the amounts of the subsidised assets.

- Investments available for sale: Should, in accordance with the IFRS, be stated at market value if this can be determined, variations being recorded in reserves up to the date the investments are sold or become subject to impairment losses

- Derivatives and other hedging financial instruments: In accordance with the IFRS, the possibility of designating a financial instrument as being a hedging instrument depends on the existence of a set of conditions relating to the formal documentation of the operations (strategy, objective, characteristics of the instrument, identification of the item covered, the risk which is intended to be covered, etc.) and compliance with the hedging efficiency criteria

- Capital v.s. liability instruments - Under the previous version of IAS 39 Brisa considered the amount of the premium received on the sale of a "put" as a capital instrument. In accordance with the current version of IAS 39 (effective as from 1 January 2005) such an instrument will be considered as a financial liability, which must be recorded at market value

- Investments in associated companies - Application of the provisions of the IFRS to associated companies recorded in accordance with the equity method of accounting results in changes to the book value of the investments. These changes are especially significant in the case CCR due to the following main adjustments:

- Capitalisation of financial costs;
- Non amortisation of goodwill;
- Reversal of deferrals;
- Effect of prior adjustments in the case of minorities and deferred taxes.

Extraordinary items: The IFRS do not recognise the concept of extraordinary costs and income and so such items have been reclassified in the pro-forma financial statements for 2004.

BRISA - AUTO-ESTRADAS DE PORTUGAL, S.A.

BRISA - Auto-Estradas de Portugal, SA sociedade aberta, com sede na Quinta da Torre da Aguiha - Edifício Brisa - S. Domingos de Rana, concelho de Cascais, com o nº de contribuinte 500 048 177, matriculada na Conservatória do Registo Comercial de Cascais, sob o nº 10583, com o capital social de euros 600 000 000

First-time adoption of International Financial Reporting Standards (IFRS)

- Brisa's consolidated financial statements for the first quarter of 2005 were prepared in accordance with IFRS. For comparative purposes, the financial statements for the first quarter of 2004 were adjusted accordingly so as to reflect the same standard basis;
- The financial information was prepared based on the understanding of current wording of international accounting rules and respective interpretations, namely IAS – International Accounting Standards, IFRS – International Financial Reporting Standards, SIC Interpretations and IFRIC Interpretations;
- Despite the existence of a "stable platform", IFRS are subject to a continuous revision process which may result in changes. In addition, this being a transition process, it is considered that potential positions taken by regulatory bodies and clarifications deriving from the practice of market interveners may lead to future changes in the information now presented.

Consolidated indicators

- Total operating revenues: Euro 131 million (+2%)
- EBITDA: Euro 96 million (+1%)
- EBIT: Euro 70 million (+2%)
- Net profit: Euro 40 million (+9%)
- Assets: Euro 4 100 million (+1%)*
- Liabilities: Euro 2 668 million (+6%)*
- Net debt : Euro 2 271 million (+3%)
- Equity: Euro 1 432 million (-7%)*

(*) over 2004

New consolidation scope

In addition to the aspects relating to the adoption of IFRS accounting criteria, the following two facts are worth mentioning on account of their impact on the financial statements:

- Consolidated accounts for the first quarter of 2005 include the full consolidation of the company Nutrend Engenharia, SA, and Tyco Engenharia Unipessoal, Lda (Nutrend and Tyco) motivating an increase in revenues by Euro 2.3 million and in operating costs by Euro 1.9 million;
- Consolidated accounts for the first quarter of 2005 do not include BCI – Brisa Conservação de Infraestruturas in the consolidation scope, since it is on the process of being sold to Efacec Serviços de Manutenção e Assistência.

Net profit grows by 9%

Brisa's consolidated net profit for the first quarter of 2005 grew by 9% reaching Euro 40 million. This increase in results was achieved in spite of a difficult economic environment which only allowed for a 2% rise in operating revenues. EBITDA (earnings before interest, taxes, depreciation and amortization) totalled Euro 96.2 million growing by 1% whilst EBIT (earnings before interest and tax) amounted to Euro 69.6 million, posting a slight rise in relation to the same period of the previous year.

Main indicators

	Euro million	1Q 04 (proforma)	1Q05	% Ch.
Total revenues	128.3	130.8	+2%	
EBITDA	95.4	96.2	+1%	
EBIT	68.1	69.6	+2%	
Profit before tax	49.8	52.1	+5%	
Net profit	36.6	40.0	+9%	

At the end of the first quarter of 2005 the EBITDA margin stood at 73.6%, decreasing by 0.7 pp in relation to the same period of 2004, whilst the EBIT margin reached 53.2%, growing by 0.2 pp as against the first quarter of last year.

Operating revenues rise by 2%

Operating revenues reached Euro 130.8 million, growing by 2% over the same period of last year. This rise was influenced, however, by the full consolidation of Nutrend and Tyco which motivated additional revenue of Euro 2.3 million.

Operating Revenues

Euro million	1Q 04 (proforma)	1Q 05	% Ch.
Toll.revenues	117.2	116.0	-1 %
Road services	6.0	9.6	+60%
Service areas	2.7	2.9	+9%
Other	2.4	2.3	-5%
Total operating revenues	128.5	130.8	+2%

Toll revenues totaled Euro 116 million, corresponding to a decrease by 1%. It should be pointed out that 2004 was a leap year having therefore one more day than 2005; if it were not for this effect, toll revenues would have remained unchanged.

Breakdown of Toll Revenues

	% Ch.
Like for Like	-0.6%
Average daily traffic (ADT)	-1.5%
Class mix	-1.1%
Tariff increase	+2.0%
New road sections	+0.6%
1-day less	-1.1%
Total	-1.1%

Regarding traffic figures, we can see a decrease in average daily traffic by 1.5% as well as a 1% loss in class mix due to the larger weight of the light vehicles class (Class 1) in relation to commercial vehicles (class 2) and heavy vehicles (classes 3 and 4).

On the other hand, the new sections of the A13 – Almeirim/Marateca motorway opened to traffic in February in a total length of 49 km had a positive impact of 0.6% on toll revenues.

Total traffic

In the first quarter of 2005 total traffic reached $1,75 \times 10^9$ vehicles traveling on Brisa network, corresponding to a 2.1% decrease in relation to the same period of 2004. In like-for-like terms, based on the same network and the same number of days than in the first quarter of 2004, Average Daily Traffic (ADT) fell by 1.5% totaling 20 885 vehicles. Traffic performance translates the difficult economic situation which the country is going through as well as the significant rise in fuel prices.

Operating costs

Total operating costs including depreciation and provisions rose by 1.5% amounting to Euro 61.2 million. It should be mentioned that the operating costs sub-total includes Euro 1.9 million arising from the full consolidation of Nutrend and Tyco as said. Excluding these effects, the growth in costs will be flat.

Operating Costs

Euro million	1Q 04 (proforma)	1Q 05	% Ch.
Cost of Goods Sold	0.4	0.6	+35 %
Goods & Services account	11.7	14.7	+27%
Personnel	20.2	18.9	-7 %
Other	0.6	0.4	-35 %
Sub-total	32.9	34.6	+5 %
Amortization	26.4	26.3	-0.4 %
Provisions	0.9	0.3	-73 %

At the end of March 2005 Brisa had 2 971 employees, less 10% than in the same period of 2004. It should be taken into account that 2005 figures includes 110 employees from Tyco and does not include 232 employees from BCI.

Stable financial costs

Financial results remained stable without relevant changes in debt and no impact from the various investments. We point out the positive impact of the Brazilian holding CCR – Companhia de Concessões Rodoviárias in the amount of Euro 3.4 million.

Financial Results

Euro million	1Q 04 (proforma)	1Q 05	% Ch.
EBIT	68.1	69.6	+2%
Financial result	-18.3	-17.5	+4%
Financial expenses and losses	-27.2	-21.0	+2%
Financial income and gains	5.8	0.5	+9%
Result relating to investments	3.1	3.0	+1%
Profit before tax	49.8	52.1	+5%
Taxes	-12.8	-11.7	+8%
Net profit	36.6	40.0	+9%

Investment

Investment projects in Brisa's network during the first quarter of 2005 totaled Euro 61 million, corresponding to a 67% increase in relation to the same period of the previous year.

Investment

Euro million	1Q 04	1Q 05	% Ch.
Main concession	36.7	61.3	+67%
New road sections	29.5	43.7	+48%
Major repairs	1.5	2.4	+60%
Expansion works	5.6	17.6	+214%
AEA Atlântico	-	19.5	-
Brisal	-	10.6	-
Road services	-	27.6	-
Nutrend Engenharia	-	5.6	-
ITEUVE	-	22.0	-
Other	1.9	1.0	-47%
Total	38.6	120.0	+211%

Balance Sheet

Total Assets grew by 1% as against the end of 2004 to Euro 4.1 thousand million as result of the network's expansion and the investments made via acquisition of Nutrend Engenharia and the car inspection company ITEUVE.

Shareholders' equity stood at Euro 1.4 thousand million decreasing by 7% in relation to the 1st quarter of 2004. This decrease stems from the payment of dividends in the amount of Euro 162 million. At the end of the period under review, Brisa showed a solid balance sheet structure with a gearing of 142% excluding the dividends effect.
